IN MOTION
LAB

MOTOR LANGUAGE STUDY

WHAT?

- Multiple sessions (1 to 10) that last from 1 to 1.5 hours
- Families receive \$20 per session and children receive a toy
- Children will receive a free speech, language, and hearing evaluation*

*ASSESSMENTS ARE CONDUCTED FOR RESEARCH, NOT CLINICAL, PURPOSES

WHY?

The goal of our research is to understand motor and language learning, so we can develop better therapies for children with speech and language difficulties.

WHO?

4 to 8 year olds with...

- Language disorder (DLD)
- Speech sound disorder
- Typical speech and language
- English as a primary language
